Are you looking for an exciting and rewarding career?

Life Science Informatics(f/m) - Aachen, Germany

Are you looking for an exciting and rewarding career? We are looking for talented and passionate individuals. At OSTHUS you have the opportunity to be part of the future.

OSTHUS is a leading consultant and software company supporting global leaders in scientific lab informatics with solutions that transform their business from initial research to end-product manufacturing. We are bringing innovative data-driven solutions to the world's largest research and development centers.

Responsibilities:

- Working on international consulting/software projects with leading pharmaceutical and chemical companies
- Supporting or leading the design and implementation of sophisticated, high-performance business intelligence reports and visual analytics tools at enterprise scale
- Implementation of user requirements in life science COTS applications
- End-user engagement and workshops
- Analysis of lab data and IT systems
- Working reliably on projects within a given time and budget frame whilst maintaining our quality standards

Required experience:

- Completed study in either bioinformatics, cheminformatics, medical informatics or a closely related discipline, Ph.D. preferred
- Knowledge and practical understanding of visual analytics or business intelligence tools in life science, e.g. Spotfire, Tableau, Vortex, Pipeline Pilot, QlikView
- A passion for IT; experience in programming/scripting languages and SQL-based databases
- Very good verbal and written German and English language skills
- Willingness to travel from time to time
- A team player with the demonstrated ability to use flexible thinking to solve problems

At OSTHUS:

Our company believes in growing and supporting your individual strengths. OSTHUS offers training seminars and individual coaching in the areas of leadership, communication and organization. We provide you space to combine theory and practice, to contribute your potential and to expand your skills. Our open communication and transparent feedback culture, combined with flexibility, trust and responsibility, delivers the best performance from which customers, partners and employees all profit. We encourage people to be themselves. We give your ideas a chance to flourish.

To apply:

E-Mail your résumé, your salary expectations and your desired starting date to career@osthus.com. Refer to "Life Science Informatics" in the subject line.
